

Packing List: Serials -- EXAMPLE

Instructions:

- This form includes both a “Shipping List” (which provides an overview of your entire shipment) and an “Itemized List” (which details each item you are sending)
- *Why do we need this?* Having both a shipping list and an itemized list makes checking your items into and out of the Digital Projects Lab more efficient and accurate because it gives us the same information in the same format from every institution. The itemized list also helps us track your items and communicate with you about discrepancies.
- If you have a standardized list or a spreadsheet of your items, you can substitute it for the “Itemized List” section of the form (contact us for more information about this)
- The Itemized List should include individual items or, if there are more than 20 items in the box, groups of items
- Only use as many lines as you need (you can change the form in Microsoft Word or contact us for an edited one)
